

EMBARK ON TECHNICOLOR'S INNOVATION ADVENTURE

Throughout the world, the connected home is changing how consumers experience entertainment and information. The growth of connected home technology and applications offers Network Service Providers (NSPs) exciting, new business opportunities in their residential and commercial markets. In order to make the most of these opportunities and ease consumer adoption of new services, NSPs must overcome different technological challenges

Transforming technologies into solution

At Technicolor Connected Home Rennes, we have a talented team of experts dedicated to developing solutions made of software, products and services that make the user experience less fragmented

Bring your motivation, team spirit, sense of ingenuity and join us!
