Sparkling Consulting,  
Smarter Innovation

**C# / ASP.NET Lead Developer Engineer**

### *Job description*

You will work directly for our compagny, based in one of our officies in Vienna – Austria or Ho Chi Min - Vientanm.

Working with all the latest technologies, Amaris' IT department is a dynamic and driving force for the Group. It reflects its values through its expertise and International organization. As part of our internal development, you will intervene in our team as a .NET Lead Developer. You will be working along with the project managers and the final users to define the needs of the different bricks of our ERP (Customer Relationship, HR tools, Business Development ...). You will

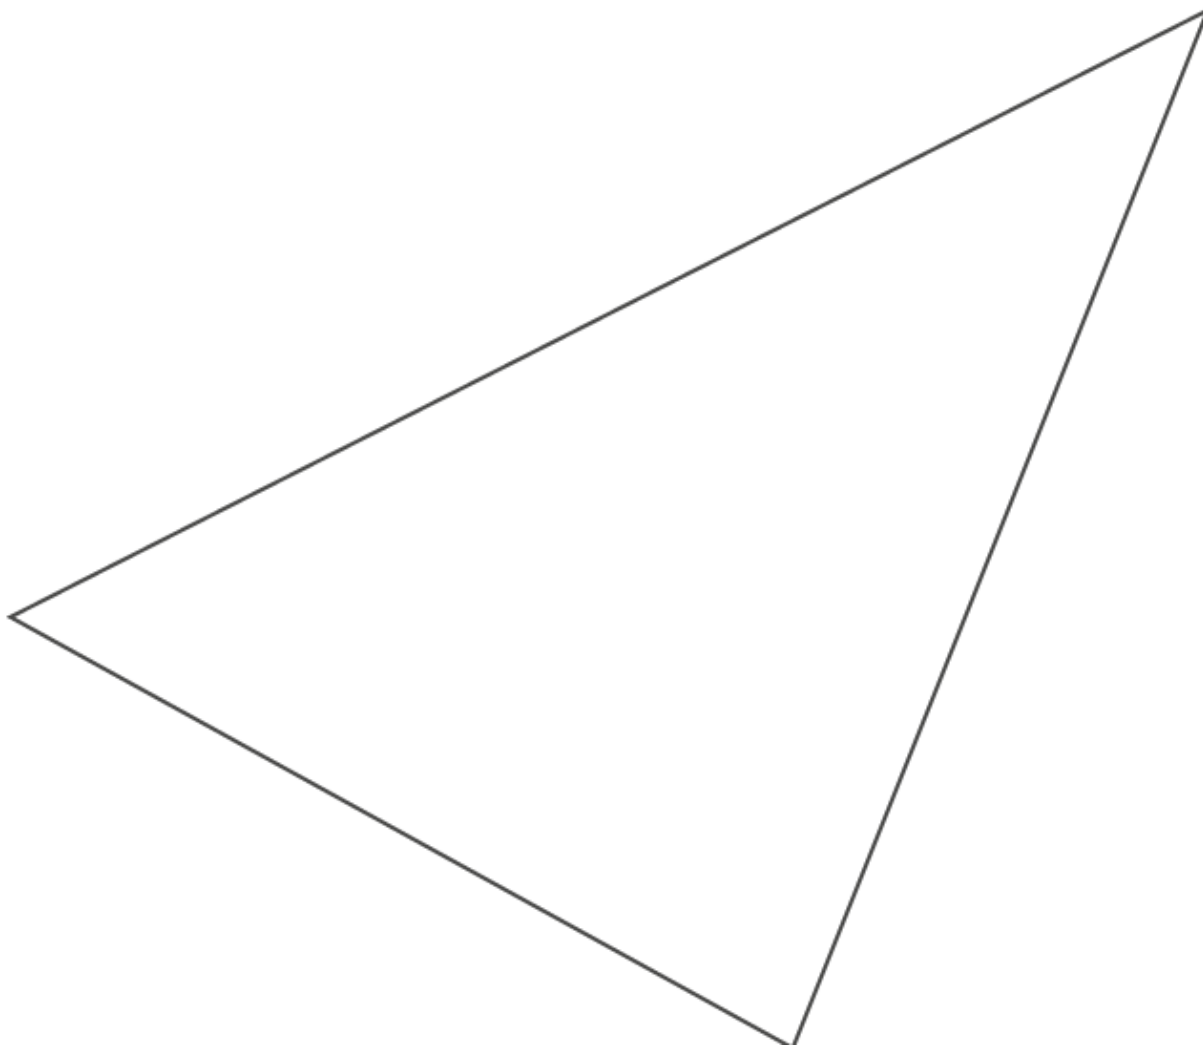

lead the development and continuous improvements of the applications. You will also lead and manage a team of approximately 10 developers.

### *Applicant's profile*

- Graduated of Master / engineering school, you are passionate about new technologies. Microsoft's tools and frameworks tend to be your speciality,
- You are an expert on .net (C#, ASP.net) and justify an experience of 2 years in .NET (C#, Asp.net, MVC, SQL Server, Entity Framework) programming.
- You also have attention to details, design and User Experience.
- You are proactive in innovative solutions and ideas, independent in work and a good team player. You have some experience in C# (Asp.net, MVC, SQL Server, Entity Framework) or Object Oriented Programming, and some knowledge in web development (Java, PHP...)
- Fluent English speaking and writing context,
