SOCIETE:

Agence de placement internationale, nous garantissons des stages rémunérés et alternance dans des PME-PMI, des multinationales, des Start-up ou des chaines hôtelières de luxe, en Espagne, en Allemagne, au Mexique et en France. IES Consulting compte aujourd'hui avec la collaboration de plus de 1500 entreprises et chaines hôtelières, plus de 500 centres éducatifs et plus de 1200 processus de recrutement réussis par an, nous positionnant comme tiers de confiance pour assurer à chacune des parties la réussite de leur projet commun.

DESCRIPTION DU POSTE:

Our partner company is a successful Publisher in Germany and it is located in the city center of Berlin. They offer exciting internship positions, i.e. in the field of IT, for independent, active and creative people. This dynamically and rapidly growing publishing company provides interns with an insight into all relevant working and daily processes during the work experience.

The company give you the posibility to be a part of the development team of the new enterprise software (ERP) in different parts like: - the own conceptioning and development tasks within the project, to build an architecture which perfectly reflects their internal company data and operations (such as customer addresses, product management, inventory, accounting, etc.) - Participation in the conceptual design of their new enterprise software (ERP) within the network-based open-source system OpenERP - Transfer (migration) of all old ERP data and processes to the new software environment - Development of interfaces between the new software and the webshop of the company

Berlin

500 euros/month

Depending on the case, the company is offering some extra to help the candidate paying the rent

PROFIL:

Have a good overview about ERP systems (ABAP, SAP, possibly OpenERP) and some previous experience with PHP, SQL, MySQL, Java, Javascript, HTML, CSS; optionally with XML / Phyton.
